Lafayette, IN 47905-7842

Dear Sirs:

The completion of the Spencer County communication system for our emergency network has prompted me to write this letter, on behalf of the Emergency Management Agency.

Our county poses many problems, as far as setting up a communication system and Mr. Jim Willison has coordinated the project and worked with the various agencies involved in a most professional manner. He is always available to answer questions and give assistance when a problem arises.

I would feel confident to recommend him to anyone requiring his type of service.

Sincerely,

Allen Perdue
Director, SCEMA
